

Welcome to a **one-day workshop**, with a practical approach on development of dispersed pharmaceutical formulations

### What?

Topics with focus on development, ranging from process and measurement technologies to manufacturing and regulatory aspects.

### Who for?

Companies active in pharmaceuticals and drug delivery, that want an update on product development aspects of dispersed pharmaceutical formulations.

Invitation

## Formulation development of pharmaceutical dispersed systems

September 29, 2010

YKI Conference Facilities, Drottning Kristinas väg 45, Stockholm, Sweden

### Program

08:30-09:15	Coffee
09:15	Welcome & introduction
09:30-10:00	Development and manufacturing aspects <i>Bengt Hedin, Helen Fält, Apoteket Production &amp; Laboratories (APL)</i>
10:10-10:40	Microfluidizer processing of dispersed systems <i>Christina Schneider, Microfluidics</i>
10:40-11:00	Coffee
11:00-11:30	Formulation technology with emulsions and suspensions <i>Jonas Gustafsson, YKI, Institute for Surface Chemistry</i>
11:30-13:00	Lunch
13:00-13:40	Monitoring formulation shelf-life stability <i>Pascal Bru, Formulaction</i>
13:40-14:20	About phospholipids in pharmaceutical formulations <i>Chris Thomas, Lipoid AG</i>
14:20-15:00	Coffee and break-out discussions
15:00-15:40	Regulatory aspects of dispersed pharmaceutical products <i>Speaker to be announced</i>
15:40-16:20	Lipid drug delivery systems <i>Richard Tennant-Eyles, Capsugel</i>
16:20-	Wrap up and individual discussions

**Last date for reduced registration fee EUR 140: September 1, 2010**

EUR 180 for last-minute registrations after September 1
